Interviews

Interview	interviewer	Date	Result
Round#1	Vijay	20-8-13	Selected
HR Round	Singh,HR	27-8-13	Offered

Main panel

Requirements

When a consultant logs in everything below the 'Search Form' is initially empty

- When a search is performed,
- Jobs table is filled with results. With first row automatically selected
- Therefore, shortlist table is filled, as well as interviews table.

You are free to use any front end and backend technologies you want. Design a proper User interface, backend and database schema to show above info and ee would prefer if you follow REST API architecture(even server side rendering is fine.)
